About Me

Computer Science graduate with strong foundational skills in Python, C and JavaScript and Docker and an eye for detail developed through my degree as well as personal projects. I have previously been on a student committee for over 2 years and participated in CTF events as well as organised a hackathon.

Experience

Astral Forge, Website Developer

Apr 2026 – present

- Modernised their website to make it load faster and make it easier to update in the future.
- Fully updated how the website is shown on mobile devices

Computer Science Society Committee, Secretary/Postgrad Rep

Jan 2024 – June 2026

- Helped organise many events and communicated with the University in order to help secure funding for events.
- Pushed for better publicity on apps like Instagram and ensured that posts went out on time.
- Ensured people did tasks that they were assigned to and stepped in when people were unable to.
- Did major updates to multiple websites ran by the society and often reviewed other peoples changes.

Skills

Programming: Proficient with Python, C, JS, Git and Docker; good understanding of Web and app development

Operating Systems: Great understanding of both Windows and Unix based systems and how to use them in both a GUI and CLI environment

Education

MSci University of Birmingham, Computer Science

Sept 2022 – July 2026

Researched how Kernel-level anti-cheats detect external cheats running on a different computer to the game.

- Programming Language Principles, Design, and Implementation 72%
- Security of Real World Systems 74%
- Dependable and Distributed Systems 71%
- Advanced Cryptography 63%
- Operating Systems and Systems Programming 73%
- Software Engineering and Professional Practice 77%

Colchester Sixth Form College

Sept 2020 – June 2022

- A level Mathematics (A*)
- A level Accounting (A*)
- A level Computer Science (A)
- AS Further Mathematics (A)

Projects

Boring Mario

A recreation of the first world of the original Super Mario Bros written in JavaScript.

Destiny Icon Searcher

A simple website made to search up the name of an item which returns the image stored in the API.

Extracurricular Activities

- Captain for a Mixed league Darts team where I have got the best out of people whilst keeping everyone happy.
- Participated in many CTFs with A.F.N.O.M including CSAW '26 Finals and organised Birminghamhack 2.0
- Part of the University Darts Society
